Start by sewing pieces 2 together at a time with right sides together. You will have 10 blocks of two cut pieces to form each column. Press all seams open as you sew.

Sew from opposite directions when sewing the columns together. This will help the fabric from shifting too much. Press seams open as you sew.

Start sewing the columns together here, alternating directions.

Using your rotary cutter, cut the quilt top along the dotted lines to square up your quilt. Once you've completed this step, you're done! Hooray!

FINISH YOUR QUILT:

Press out your quilt top and make a quilt sandwich with your batting and backing. With the right sized of the quilt top and backing right sides out.

We chose to hand quilt using embroidery floss to excentuate the the design and fluffiness of the double gauze.
