HALF SQUARE TRIANGLES (HST)

Seam allowance for all seams is 1/4"
WOF = width of fabric

From each 7" square, you will yield (4) HSTs to make the pinwheel blocks. Organize your 7" squares with their pinwheel pair, and place right sides together. Sew all the way around the raw edge at 1/4", pivoting at the corners. Use the 45° line on your ruler to cut diagonally corner to corner. Open the squares and press seams open or to the side, trim each to 4.25".

Now arrange the HSTs into a pinwheel block. Press seams open or to the side. The unfinished pinwheel block should measure 7.5".

ASSEMBLY (BOTH VERSIONS)

Piece together all rows, using the diagrams on pages 1-4 as your guides. Press seams open or to the side after each step. Sew together rows with 1.5" sashing pieces. Sew 2.5" side pieces and finally the 3.5" top and bottom pieces.

Now give it all a good press, and your quilt top is ready to quilt and bind!
